Ship Spare Parts

With an established network of partnership extending from Europe to Far East we can cover your needs in either OEM or Original Parts and ensure competitive price and fast delivery processes.

Through our presence of more than 30 years in the industry we have secured the ability, through our affiliated company based on Qingdao Port, to serve Vessels in every China Port with ship repairs, store supplies, machining operation.

We have our own team and workshop, and our ship repair includes:

- ❑ Steel plates & pipes renewal & installation
- ❑ M/E & Aux. engine repairing & overhaul
- ❑ Machinery & hydraulic system repairing & overhaul
- ❑ Boiler & Condenser service
- ❑ Oil taker cleaning, etc.

Our good-standing and our reputation have secured us good relationships with many China Ship equipment manufacturers, we can supply spare parts of deck machineries, valves, mooring fittings and various motors, as well as

- ❑ Deck
- ❑ Engine
- ❑ Cabin Stores Supply.

Furthermore we have a specialized team, through our affiliated company, for Metalock repairing, including:

- ❑ the reconditioning of diesel engine components (i.e.: cylinder cover, piston, exhaust valve spindle and valve seat);
- ❑ repairing of propeller
- ❑ plasma cladding treatment of piston rod of hydraulic cylinder, shaft etc.
- ❑ crack Metalock repairing of various casting cases; and any other special welding procedures.

Our welders have more than 15 years Metalock repairing experience and have been approved by China Classification Society with various welding certificates, including Cu1, Cu2, Cu3, Cu4 and Martensitic stainless steel etc. .
